MANDLEVE The Legend (Great Tuskers of the Kruger National Park)

He was named Mandleve which means "ears" because of the prominent notch in his ear. This impressive bull ranged in the Skukuza area, where he was often seen near the Kruger Gate and as far east as the Nwatinhiri road. Mandleve died from old age in September 1993 at +- 56 years of age next to the Sabie river near the Kruger Gate. He has gained the title of The Greatest Tusker of the Kruger and his tusks were the heaviest ever recorded in the Kruger National Park.

Left Tusk: Length: 106.6 inches, Mass 150 lbs.  
Right Tusk: 120 inches, Mass 162 lbs.
